

**POWERFUL...PORTABLE...RELIABLE...**

## Gas Power Units

Powerful, portable and reliable...Oztec gas power units, provide ultimate and immediate adaptability on the job. Utilizing rugged and dependable Honda gasoline engines, coupled to our "speed-up" transmission, vibrator heads develop 12,000 vpm and never drop below 10,000vpm...Even in the heaviest low slump concrete loads. (Tested in near 0 slump concrete). This 10,000 - 12,000vpm range is essential for high-quality concrete.

(Direct drive units "scream", have short lives and usually drop below 10,000vpm when the head is immersed in concrete).

Two powerful Backpack Models: Mounted on very comfortable frames, OZTEC backpacks BP-31 and BP-50 allow operators incredible maneuverability around the job. Run time with full tank approximately 1 hour plus.

### BP-31

Runs heads up to 1 1/2" diameter. Honda 1 1/2 HP, 4 stroke, Weight 19lbs.

### BP-50

Runs heads up to 2 1/2" diameter. Honda 2 1/2 HP, 4 stroke, Weight 24lbs.

### GV-5

Carry handle

*All Oztec power units come standard with the Quick Disconnect "QD" system*

### GV-5W Wheelbarrow

Our Carry Handle and Wheelbarrow models, with flexible shaft storage, are ideal for any job site. Utilizing Briggs & Stratton and Honda engines, these power plants run all steel and rubber heads up to 2 3/4 inch diameter.

*It must say "OZTEC" to be the industry's best concrete vibrator.*
